# Monthly Goals

Setting goals teaches children to strive for accomplishments. Monthly goals allow children and parents to track progress as children work toward their monthly reward.

**SECTION I**

**Monthly Goals**  
A goal is something that you want to accomplish. Sometimes, reaching a goal can be hard work!  
Think of three goals to set for yourself this month. For example, you may want to exercise for 10 minutes each day. Have an adult help you write your goals on the lines.  
Place a sticker next to each goal that you complete. Feel proud that you have met your goals!

**Word List**  
The following words are used in this section. They are good words for you to know. Read each word aloud with an adult. When you see a word from this list on a page, circle it with your favorite color of crayon.

# Daily Pages

Pages are numbered for each day and coordinate with the traditional three-month summer vacation. Half-page exercises make it easy for children to complete an activity on their own. There's still time for play!

# Real-World Activities

- Hands-on projects
- Character development
- Fitness challenges
- Outdoor learning activities

**Outdoor Extension Activities**

**Take It Outside!**  
Play a game of hopscotch to reinforce counting skills. Use sidewalk chalk to draw a basic, numbered hopscotch pattern on a safe sidewalk or driveway. Find two outdoor objects for you and your child to pick up, such as pinecones or smooth stones. To add counting and physical challenges, draw another hopscotch pattern with random numbers so that your child has to jump a little farther and find the numbers in order. Add more numbers as your child becomes familiar with each pattern.

Invite your child to a summer picnic! Make sandwiches, snacks, and drinks. Put it all in a picnic basket and grab a blanket. Before eating, talk about the five senses—taste, smell, sight, hearing, and touch. As your child eats each food item, talk about the variety of tastes and smells, such as the salty potato chips and sweet apple slices. Point out the things you and your child can hear, see, and feel during the picnic, like the crunch of the carrots, the color of the birds, and the softness of the grass beneath the blanket.

**Please Recycle!**  
Explain to your child that when paper, plastic, metal, or glass is recycled, it is remade into something useful. For example, plastic milk jugs may become building materials. Recycled glass bottles or aluminum cans can be remade into new bottles or cans.

Talk about ways that recycling is good for the planet, such as conserving natural resources and saving landfill space. If your community participates in a recycling program, allow your child to help you sort the recyclable items or take a trip to the recycling center to drop off your recyclable materials.

**DAY 17** Language Arts

Choose a word from the box and write a synonym for each bold word. Then, write a synonym for each bold word. Then, write a synonym for each bold word.

**BONUS**

**Being a Good Citizen**  
A good citizen helps the community, protects the environment, follows rules, and treats others with respect. Circle the two pictures that show children being good citizens.

Draw and color a picture that shows how you are a good citizen.
